## **OBJECTIVE:**

Seeking an internship/co-op position in Mechanical Engineering beginning spring or summer 2020. I wish to gain experience in the field in order to discover what I would like to pursue as a career.

## **EDUCATION**

**North Carolina State University**, Raleigh, NC

B.S. in Mechanical Engineering, May 2022

GPA: 0.00 First Year Transfer Student

**Craven Community College**, Havelock, NC

Associates in Science

Transfer GPA: 3.7/4.00

**Relevant Courses:** Engineering Physics II, Intro to Computing Environments, Intro to Engineering, Intro to ME Design, Foundation of Graphics, Mechanical Engineering (ME)

## **TECHNICAL SKILLS**

Adobe Premiere, MS Excel, MS Word, Rhino Drawing Software, Solidworks, Windows  
7/8/10, On site experience for Control Systems

## **WORK EXPERIENCE**

**Control Systems Engineering Intern**, T3 Automation, Morehead City, NC August  
2017 – May 2018, 15 hrs./wk.

**Control Systems Engineering Technician**, T3 Automation, Morehead City, NC  
May 2018 - Sept. 2019, During Summer: 40+hrs/wk, School Year: On call/part time

- Helped design/create Control System Panels for jobs such as Yacht Engines, Blood Plasma Refrigerators, and Military Jet Engine Testing
- Created wiring guides and drawings
- Field technician for T3 on Plan B (Yacht) and Pax River East (Naval Base)
- Utilized communication, organizational, and computer skills to complete daily tasks

**Cook/Food Runner/Dishwasher**, Redfish, Morehead, NC May 2016 –  
May 2017, 40hrs./wk.

- Greeted and served guests, focusing on making their experience the best possible.
- Developed great communication and teamwork skills assisting chefs and servers.
- Ensured the kitchen was clean, properly prepared and operated efficiently
